WAR RAGES IN CUBA

Several More Battles Have Taken Place.

THE SPANISH TROOPS DEFEATED.

They Left Their Dead on the Field and Retreated—Forty-Nine Killed—Spanish Soldiers Deserting and Joining the Insurgents—A Different Story Told by Some Spanish Refugees—Steamer Advices.

TAMPA, Fla., April 1.—The plant steamer Olivette arrived last night bringing the following advices from Cuba: Several minor fights on the 26th and 27th inst., took place between the Spanish troops and insurgents in the province of Santa Clara. The insurgents defeated the Spanish troops both days. The Spaniards left their dead on the field and retreated in good order. The dead, it is stated, numbered 49 in both days' fighting.

According to the advices, the soldiers recently sent from Spain, called volunteers, most of whom are mere boys, are conscripts. Their hearts are not in the fight, and there has been many of them deserted and gone over to the insurgents. Two regiments were sent to the country three days after their arrival in Havana. Fifty so-called Spanish volunteers recently from Spain deserted, and are with the insurgent general, Palacio.

General Amada Guerra is near Manzanillo, a seaport town, with 5,000 well armed cavalry. He is considered the bravest of all by the Cubans. It is expected he will shortly raid the towns of Santiago and Manzanillo.

It is estimated that the insurgents now number 20,000 under arms in the island.

Yesterday a prominent Cuban of this city said: "Spain will find us prepared this time and not like 1886. We have leaders and lots of money. We will have our independence and very likely annex to the United States." He said that the yellow fever would thin the Spanish ranks and that the insurgents would get aid from outside.

The steamer Pedro Pablo is still under surveillance by the custom authorities. The cutter McLane is still here to enforce the neutrality laws.

A DIFFERENT STORY.

Spaniards Try to Blitittle the Insurrection in Cuba.

TAMPA, Fla., April 1.—Among the passengers on the steamship Olivette were a number of Spaniards and Cubans from the island. The Spaniards said that there was fighting in the eastern part of the island, but that they were sorry for the "poor Cubans" engaged in it, for those that were not killed in the fighting would be shot afterward. They ridiculed the idea of Cuban success.

When asked if they were leaving the island to avoid being forced into the volunteer ranks, they said they were coming here to work in the cigar factories, as the business was dull in Havana.

Spanish estimates place the insurgent forces at less than 3,000, and the reason assigned for the shipment of so many soldiers from Spain to Cuba was that as there was only 6,000 permanently located in Cuba, Spain thought it advisable to place more of a standing army on the islands so that in case the Cubans should attempt to uprising they would be overpowered at once. No other reason for the movement of troops was assigned.

Martinez Campos is expected to arrive in Havana on April 4 and it is understood that the fight will then be on with great vigor.

For the first time the civil guard of Havana are acknowledging the insurrection. The landing of Maceo with 1,000 men near Boraco is generally conceded. Flor Cromble is said to be with him, and it is asserted that the landing was effected on the 23d.

A Cuban report is that arms were disembarked near Santiago by Cubans on the 24th.

Brooks is said to have left the island with Massorine, commanding his troops during his absence.

Santocider is reported as having been routed by Amador Guerra on the 22d, with slight losses.

Camagnay insurgents are in command of the Marques De Santa Lucia. They are in possession of the town of Camagnay,

All the insurgent forces are focusing toward Yara, where they intend forming the new republic.

Lachambre has been captured by Guillermo at Raire, and is now a prisoner at Monte Negro.

A band at Vinales, in Vuelta Abajo district, near Havana, is said to number 200.

Gonzal Quesada, secretary of the Cuban revolutionary party, is here at the home of Colonel Figueroa.

Filibusters Watched.

MADRID, April 1.—The cruiser Rina Mercedes has sailed for the Bahamas. She will go thence in pursuit of General Maceo, the insurgent leader, who is reported to have left Costa Rica for Cuba in command of a filibustering expedition. The Spanish minister at Washington is kept informed of the movements of the filibusters.

SAN DIEGO, Cal., April 1.—Deputy County Assessor L. D. Bailey of Julian and F. B. Brackett of this city are missing, and it is feared that they have been murdered. They went out to collect taxes on personal property and had several hundred dollars in their possession. Their horses, with halters hanging from their necks, have arrived at Julian where the gravest apprehensions exist.

HIS END WAS PAINLESS.
A Stroke of Paralysis Ends the Life of a Well Known Chicago Editor.

CHICAGO, April 1.—Anthony C. Hesing, former editor and publisher of the Illinois Staats Zeitung, died yesterday at the age of 72. Death was due to a stroke of paralysis. His end was painless. For the last few years Mr. Hesing had retired from active business and political life. When Mr. Hesing retired from newspaper work, his son, Washington Hesing, now postmaster of Chicago, took charge of The Staats Zeitung.

Washington Hesing last night said that for the last two months his father's health had been much better than for some time previous, and he was able to get around and busy himself with a number of matters of importance. He called at the postoffice last Thursday to see his son, who had just returned from Washington the night before.

The funeral arrangements have not yet been completed, but the interment will be Wednesday at St. Boniface cemetery in this city.

Mr. Hesing was born Jan. 6, 1823, in Germany and came to America in 1839. Throughout the war Mr. Hesing was an ardent supporter of the Lincoln administration and during the reconstruction was a Radical. He contributed largely to the Republican congressional victory in Illinois in 1866. With the exception of being one of the Lincoln park commissioners from 1874 to 1875, he had held no political office since he was sheriff. He has been an active force in politics, however.

To him the success of "Altenheim," or the German old people's home, near Oak Park, is very largely due. He took an almost fatherly interest in it and its inmates, and in his later years devoted a large share of his time and energies to it. For the past year or more he has been active in the work and efforts of the city's civic federation.

On the 70th anniversary of Mr. Hesing's birth he was given a notable reception. Congratulations were received from all parts of the country from representatives of all classes of citizens. The employees of The Staats Zeitung, who had been in the service of that journal for more than 25 years, presented him with a gold-headed cane as a mark of respect. The Plattdeutsch Verein also presented him with an address of respect, and the Orpheus maennerchor serenaded him in a body.

Mr. Hesing died some years ago. Washington Hesing is their only child.

GETTING REVENGE.

The Man Who Tipped Off the Southern Hold-Up Arrested and Jailed.

SOMERSET, Ky., April 1.—Sam Frazier, the man who tipped off the hold-up of the Cincinnati Southern train Tuesday last is now in jail here, having been arrested at the residence of James Owens, some 20 miles west of this place by Deputy Sheriff Sumpter. A warrant was sworn out by Daniel New before County Judge Catron for grand larceny and placed in Sumpter's hands, who soon located his man, and Saturday night about 11 o'clock arrived here and turned him over to Jailer Catron for safekeeping. New, who swore out the warrant, is distantly related to the Morrows and claims the horses in possession of Frazier belonged to Mrs. Morrow, while Frazier states he bought them from Jerry. It is doubtful if the charge can be sustained.

Frazier, who was interviewed yesterday, has been under the influence of whisky almost continuously since the attempted hold-up of the train. It was not so, however, yesterday, as he told the story of the hold-up. He claims there were but four men in the job and gave at some length the history of it, the main facts having been already given. He made so many contradictory statements, it is difficult to know what to accept as the truth.

John Underwood, the man implicated by Frazier as being one of the party, was seen at Cumberland Falls station Saturday, but soon returned to his home.

The tramp, Martin, continues to improve under the care of Dr. Reddish, who is greatly encouraged. His father is so well pleased with the prospects of his speedy recovery that he expects to return to his home in Allegheny tomorrow, if no unfavorable symptoms develop by that time.

FIRE IN CHICAGO.

Several Newspapers and Printing Firms Badly Damaged.

CHICAGO, April 1.—The northern portion of The Times' building, a five-story stone structure, was damaged \$70,000 by fire yesterday afternoon. At the early stages of the fire it looked very much as if this old landmark of Chicago would be destroyed, and it was only by extremely energetic efforts that it was confined to the above place.

The publishing rooms of The Journal of the American Memorial Association were entirely burned out. Max Stern, printers and stationers, and a half dozen printing firms were also badly damaged.

The quarters of The Freie Presse, a German daily paper, were thoroughly wiped out, but they managed to put the premises into shape in time to get out their paper.

The Times building is owned by D. A. Blodget. His loss is estimated at \$15,000. The losses are entirely covered by insurance.

Dozen Families Homeless.

MILWAUKEE, April 1.—Yesterday an entire block in the suburb of Silver City, west of the city limits, was swept by fire, and a dozen families made homeless. Many of the people barely escaped in their night clothing. The loss is placed at \$15,000, about 75 per cent of which is covered by insurance.

BISMARCK BIRTHDAY

Germany's Old Chancellor is Eighty Years Old Today.

THE DAY IS BEING CELEBRATED.

Trainloads of Presents and Thousands of Letters and Telegrams Received at Friedrichsruhe—The Old Chancellor Is Enjoying the Best of Health Just at Present—Events of the Day.

FRIEDRICHSRUHE, April 1.—The Bismarck celebration is in full swing over the 80th anniversary of the birth of the old chancellor. Every train arriving at Friedrichsruhe is loaded with presents for the aged statesman, and every post brings hundreds of congratulatory letters, not only from people in Germany, but from Germans and others throughout the civilized world.

Washington Hesing last night said that for the last two months his father's health had been much better than for some time previous, and he was able to get around and busy himself with a number of matters of importance. Celebrated All Over Germany.

BERLIN, April 1.—Telegrams are pouring in from all parts of the empire announcing that the Bismarckian fêtes are being celebrated with great spirit all over Germany. Among those present were representatives of 36 cities in the Rhineland district. Professor Acken of Giessen university delivered an oration at the foot of the monument. In Munich, the Bavarian capital, a musical in honor of the occasion was given in the Odeon.

Throughout Germany last night joy fires were burned on the highest mountain peaks and hills from the Baltic and North seas on the north to the Swiss and Austrian frontiers on the south, from the Russian frontier on the east to the frontiers of France, Belgium and the Netherlands on the west. Never before in the history of the empire has there been such a heartfelt and spontaneous exhibition of love by the German people.

All the schools and most of the civic and state offices are closed in honor of him to whom the empire owes its existence.

With few exceptions the newspapers publish leaders on Prince Bismarck, accompanied by poetical effusions. They carefully refrain from any utterances calculated to injure the feelings of the German people. Even the critic Vorwärts, the organ of the social Democracy, has the good taste to keep silent.

Emperor William intends to personally christen the new German warship "Bismarck."

CHATHAM, Ont., April 1.—The greater portion of the largest building at the corner of King and Sixth streets, owned by James Lamont, G. Richardson and G. E. Young, was gutted by fire yesterday morning. The stocks of Burries' dry goods store, McLaren's drugstore and Jordan's jewelry store were destroyed, and that of Young's grocery was badly damaged. Occupants of offices in the two upper stories of the building also suffered considerable loss.

In the afternoon at 4 o'clock a five-story wooden building, owned by M. Houston, containing five stores, and occupied by a number of families, caught fire and burned to the ground. The loss in the latter fire is about \$10,000.

The total losses from both fires will aggregate \$50,000, with insurance of less than one-half.

Fire in Queen Victoria's Palace.

NICE, April 1.—Considerable excitement was caused at Cimiez yesterday among the household of Queen Victoria, owing to an outbreak of fire in the apartment of one of her majesty's Indian attendants. For a time the greatest confusion prevailed, but the hotel employees and others quickly extinguished the flames.

MYSTERIOUS MURDER.
A Colored Woman Killed and Her Body Horribly Mutilated.

NEW YORK, April 1.—One of the most mysterious murders committed in this city since the mutilated body of old "Shakespeare" was found in a low resort near the East river front, for whose butchery the Algerian, "Frenchy," is now serving a life sentence, was discovered yesterday shortly after 6 o'clock a.m.

The victim in this case was a young colored woman, whose dismembered body was found wrapped in pieces of carpeting and partially hidden from view in the rear of the building of the New York Bank Note company on the southwest corner of Sixth avenue and Waverly place. How long the ghastly remains had been laying there is not known.

As yet the police have no clew. The bundle in which the remains were found, was bound at either end with pieces of clothes line, leaving the middle portion somewhat loose. Patrolman Kasnire put his hand inside and drew out the lower part of a human leg.

The body proved to be that of an unknown colored woman between 21 and 25 years old. She was 4 feet 9 1/2 inches in height, and weighed about 110 pounds. She was well formed, with a flat nose and high cheek bones, and her skin was of a dark coffee color. Around her neck was tied, in double knot, a long piece of cheese cloth. This had been tied so tightly that it had caused strangulation, and had forced the tongue to protrude from the mouth, and had been tied across her breast with a strong piece of cord by means of a slip knot. Her legs had been cut off just above the knees, and one of them lay on top of the body with its foot toward her head, while the other was found underneath the body. Both members had been hacked off with a sharp ax or a butcher's cleaver, pieces of ragged skin and flesh were hanging from the dismembered legs.

The only clothing the woman had on were a chemise and chemisette of white material. When these were removed a gaping wound nine inches long, and which penetrated to the bone, was disclosed just above the right thigh. The stuff in which the body was wrapped was composed of an old brown table cover, which some thought to be a piano cover, a piece of carpet and an old rug.

In the bundle there was found a piece of note paper. On this paper was a clot of blood and written in pencil these words, so far as they could be made out:

March 23, Raw Way, N. J., James (or Jane) E. Surindell, Raw Way, New Jersey."

Neath was the word "Solomon," and also the word "Brother," while the word "ditto" was written between them.

At the stationhouse Deputy Coroner Donlin first removed the stout cord which bound the hands. He next unloosened the long piece of cheese cloth with which the woman had been choked to death. He found that this had been tied in a double knot, and that it had been the direct cause of death. The other mutilations, he said, had been made after death had come. There was no blood on the woman's person and none on the light clothing she wore, which Dr. Donlin accounted for from the fact that she had been killed before she had been chopped up. The deputy coroner said that he had no doubt that the woman had been cut with a sharp ax or a butcher's cleaver.

There was nowhere to be found any evidence of a struggle on the part of the woman. On the neck was an abrasion caused by the cloth with which she was strangled and a slight abrasion on the other side of the neck. The deputy coroner was positive that the woman had been dead not more than 24 hours before the body was found, and that she had probably been dead not less than 14 hours, although the time might have been less. He said also that the woman had been a mother.

Among the slight clews which may eventually lead to the identification of the body are those furnished by a plain gold ring the woman wore on the third finger of her right hand, and by the fact that she wore a porous plaster on her left breast.

Two other things found near the body in front of the Bank Note company's building which may prove valuable were a bottle of alcohol and a small bag of salt. Until the remains were removed to the morgue during the afternoon they were visited by many hundreds of colored people living in the vicinity, but none of them could identify her, although Henry Allen, a

It is to be hoped that the Pittsburgh parties who want to start a big steel plant here can be induced to do so. More industries that require skilled employees are needed in Maysville.

The market statements show that the supply of desirable domestic wools is steadily diminishing, while the excess of importation is disappearing, says the Philadelphia Times. The mills, in turn, are engaged in working out fair-sized contracts and in making new engagements for next season's goods. One report declares that "improvement in conditions is the result of natural developments." Free raw material in wools is beginning to have the beneficial effect that any industry must experience with excessive tariff taxes removed.

"Two note-worthy items were printed in the telegraphic news recently," remarks the Philadelphia Record, "a dispatch from Pittsburgh announcing that the Oliver Coke Company had notified its several thousand hands of a general advance in wages, amounting to 15 per cent., and another from Haverhill, Mass., to the effect that Winchell & Co. had notified their 700 hands of an increase in wages equivalent to five cents per case. Such instances of voluntary increases of pay afford indisputable proof that the industrial situation is working out its own betterment regardless of the lethargy of the late Congress, and they warrant the hope that under the reformed tariff system there will be small occasion for the arbitration committees and the militia calls which chiefly signalized the era of McKinleyism."

JAMES McCook, a Scott County farmer, has filed suit at Georgetown against Circuit Judge James E. Cantrill for \$10,000 damages. At the last October term of court McCook was ordered to jail by the Judge for refusing to answer a question of the grand jury in regard to the violation of the liquor law by a certain person and remained there until November 20, when he was pardoned by the Governor on petition that his services were necessary for the support of his children. The plaintiff alleges in his petition that his arrest was ordered wrongfully, wilfully and maliciously, and in violation of the law, that his children depended upon him for support, and that he was kept from employment, and he was damaged in business, character and reputation.

A PENNSYLVANIA DRUMMER.

Tells How They Manage the Turnpikes in the Keystone State.

A drummer whose home is in Pennsylvania has an article in the Danville Advocate this week on the turnpike question. He tells how the roads are kept up in his State. Here's what he says:

"I live in Pennsylvania. Our gravel and McAdam roads are free to the public travel. The township or counties maintain them. A Supervisor of roads is elected every four years by the legal voters of each county. Their salary is from six to twelve hundred dollars per year. They are held strictly responsible and subject to indictment, fine and forfeiture of office if they fail to have the roads kept in good order. In my county the Supervisor lets the roads to the farmers living on the roads at so much per mile per year, in which the contractor will agree to keep up say five miles on a certain road, according to certain specifications, subject to approval of the road Supervisor. A road tax of six cents on the hundred dollars worth of property pays for the work. The cost of maintenance of our roads is from thirty to fifty dollars per mile. I have a brother who is a farmer near Chambersburg, Pa., who has for many years kept five miles of the road he lives on in repair at forty dollars per mile. In the fall of the year, when his crops are laid by, he takes his men and team from the farm and spreads gravel or broken stone wherever needed, and says he makes good wages at the business. Mr. Editor, I have no personal interest, of course, in the public roads of Kentucky, as the consumer of my goods, like the consumer of whisky or any other article upon which there is tariff, pays the toll. We, in the North, would consider toll gates a long step backwards, as we believe that the public roads rightly belong to the people rather than to corporations.

"I heard several gentlemen assert that Kentucky had more miles and better turnpikes than any other State, in the Union. But I beg leave to differ from this assertion, as for the past thirty years my calling has taken me over many of the public roads of every State from Maine to California, and I know that New York, Pennsylvania, Ohio and many of the other old States, have as good, or better roads and from ten to fifteen times as many miles of McAdam roads, and just here I will incidentally remark that Kentucky is the only State in which I ever paid toll for using the public roads."

ELECTRICITY

Gradually Supplanting Steam as a Motive Power.

WATERTOWN, N. Y., March 29.—There is said to be a big scheme on foot among the New York Central capitalists to purchase all the water powers on the Black river between Carthage and Dexter, including those in this city, for the purpose of utilizing them in the generation of electricity.

The electricity is to be used as the motor power on the Vanderbilt railroads in Northern New York. Should the scheme go through, there will be one grand overhead trolley system, consisting of four wires over each track. Connection is to be made with Niagara Falls, and the power at Waddington, on the St. Lawrence river.

If the scheme should become a reality it will revolutionize the business interests of Northern New York.

Large Crowd.

The largest assembly ever gathered at St. Patrick's Church was there last night long before the hour announced for the services, to hear the eloquent Rev. Father Ennis deliver his sermon on "The Sacrament of Holy Orders, or Why a Priest Doesn't Marry." Every bit of available space in the church was occupied and many could not gain admittance. The Rev. Father spoke for about forty-five minutes and had the closest attention at all times from the large audience.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Unprecedented

REGULAR meeting of the Sons of Temperance at G. A. R. hall to-night. Business of importance.

LEN PURNELL, Scribe.

MRS. M. GEISEL, W. P.

DR. TACKETT, the so-called faith-cure, who figured in a sensation at Vanceburg a year or so ago, recently occupied the Price house in the Sixth ward destroyed by fire last Saturday night. He moved out a week ago to-day.

A. T. FORSYTH, auctioneer.

PUBLIC RENTING

TWO COTTAGES DESTROYED.

The Sixth Ward Visited by a Fire Saturday Night—The Loss and Insurance.

The Sixth ward was the scene of a fire Saturday night that at one time endangered a row of frame cottages. One of the buildings was destroyed and another was in flames before the department got to work. It took but a few minutes to extinguish the blaze after the water was turned on.

It was shortly after 7 o'clock when the fire was discovered. It was in a frame house on East Third in what was once known as Woodville. The building was owned by Mr. J. F. Price and was vacant, the family that last occupied it having moved out a few days ago. The origin of the fire is a mystery, but it is thought by some that a spark from a C. and O. engine started it.

The new Sixth ward fire company was the first to reach the scene, but after stretching the hose and connecting with a plug, it was found that the wrench used in turning the water on had been forgotten. This caused a delay of several minutes.

The Price house was destroyed and the cottage just west of it belonging to James Stephens, of Covington, was gutted. The Stephens house was occupied by Dow Mason, colored, who saved his furniture and household goods. The building adjoining owned and occupied by Mrs. Maria Wilson, colored, was damaged somewhat by water.

Mr. Price had \$500 insurance on his house, in the Globe. His damage is placed at about \$1,000. The Stephens house was insured for \$400.

Railway Business.

In an interview in New York President Ingalls has the following to say concerning the C. and O. and the Big Four:

Business is very good in the small manufacturing towns on the Big Four. The Chesapeake and Ohio statement for February shows a decrease from last year in gross and net earnings, owing to cold weather.

It was the coldest month for years in the Virginias and trains were snowbound for a week. This decreased earnings and added to expenses. An interesting feature not generally known is that the Chesapeake and Ohio Company, during the fiscal year that began on July 1, has been charging all miscellaneous construction items and improvements, such as additional sidings, taking out tunnels, filling trestles, new stations and other like work, of which there is more or less being done, directly to operating expenses, and this averages about \$25,000 a month.

Ripley's New Postmaster.

Mrs. Mary Byersdorfer was appointed postmaster at Ripley Saturday. The Washington correspondent of the Cincinnati Post says: "For some time Senator Brice has had Harry Frost, editor of the Ripley Bazoo, slated for the job, but evidently a cog slipped somewhere. Mrs. Byersdorfer served as Ripley's Postmaster during Cleveland's first term and made a fine record. It is supposed that Grover remembered this and appointed her on his own responsibility."

The other candidates for the place were B. S. Norris, Louis Mischer, C. N. Woodward, Carl Linn, C. A. Linn, G. A. Schneider, William M. Masterson, Miss F. K. Adkins, Harry E. Frost, William B. Albright, Miss Etta Flaugher and John W. Adkins.

Attention, Citizens.

MARSHALL ALLEN, of Covington, board ed an eastbound freight train at Vanceburg Saturday morning. At Stone City he lost his balance, fell off the car and his right foot was crushed under the wheel. He was brought back to Vanceburg where his right leg was amputated just below the knee by Dr. Campbell.

JOHN W. MORRIS, known as "Blue Shovel," was jailed Saturday by Constable Dawson on a charge of grand larceny. He is accused of stealing \$65 from one of his relatives. Mr. Dawson had been after him several days and finally located him at Vanceburg. An officer there arrested him on instructions from Mr. Dawson, who went up after him Saturday. Morris was to have a hearing before Squire Bramel this morning at 10 o'clock.

ON Monday, the 8th of April, at 2 p. m. the house occupied by H. Linns, confectioner, on Second street, also the residence of the late Mrs. Eliza Wroten on Fourth street, will be sold at public auction on the premises. Terms make known on day of sale.

GEORGE W. SHIELDS, editor of Justice, a weekly paper published at Louisville, has filed suit for \$10,000 against Sheriff Pflanz, charging the latter with inhuman treatment while conveying him to Bardstown, where the editor was to stand trial for an alleged libelous article which appeared in Justice, concerning Internal Revenue Collector Johnson.

AN Italian with a performing bear struck Newport Saturday and attempted to give performances, but Chief of Police Ratliff placed the pair in the category of a circus and demanded \$50 per day, as required by a recently passed ordinance. After the Italian recovered from the effects of the official demand he and his bruin companion sought another field for their circus.

MUNICIPAL and township elections come off in Ohio to-day. Aberdeen will elect four Councilmen and one Clerk, the Clerk to serve two years, three Councilmen two years and one Councilman one year. Robt. Purdon has a sure thing on the clerkship, as he has no opposition. The following are the candidates for Council. Wm. Campbell, J. W. Jones, T. J. Sutton, John Fleming, A. B. Perry, James Small, Gus Sorries, G. W. Howard and John Her-

BET. MARSHALL ALLEN, of Covington, board ed an eastbound freight train at Vanceburg Saturday morning. At Stone City he lost his balance, fell off the car and his right foot was crushed under the wheel. He was brought back to Vanceburg where his right leg was amputated just below the knee by Dr. Campbell.

CAPTAIN ED. PORTER THOMPSON says the statement that the expenses of the office of Superintendent of Public Instruction approximate \$20,000 annually is erroneous. The expenses last year aggregated about that sum, but this was due to the extra expense incurred on account of putting out a large number of school text-books, and an additional amount of printing, both of which were required by the school laws. The expenses regularly, it is thought, will not be more than \$10,000.

AN OLD SUPERSTITION.

Years Ending in "5" Not Good Ones For Wheat—A Dry February.

[Kentucky Gazette.]

No rain fell during the month. Snow in unmeasurable quantity fell on five days, the total precipitation being 58 inches. It was the driest month in the writer's remembrance, and the first, during which neither rain nor sleet fell. The rain-fall last year was 3.39 inches and the average for ten years is 4.27 inches.

With the one exception of 1890, the shortage of February has not for a very long time been made up in March following, and if excessive rain-fall shortly occurred it began in May.

There is a current superstition that years ending in 5 are not favorable to wheat. This belief is verified by the experience of the last fifty years, and the majority of the readers of the Gazette without doubt remember the losses of both '75 and '85. Conditions in 1875 were very much as now. There had been a series of dry years. The fall of 1874 was as dry as a bone, and small grain went into the winter barely showing green on the ground. The spring was unfavorable until April 17th, after which everything conduced to perfect the development. A superb crop went into shock, but on June 22 began a deluge which literally lasted forty days and nights, and there was hardly saved a perfect crop in the Ohio valley. In 1885 rust and midge ran riot through the crop.

THE Greenup Circuit Court convened to-day.

THE Fiscal Court of this county convenes to-morrow.

PERSONS desiring to borrow money in the fifth series of the People's Building Association should call on Robert L. Baldwin Secretary, or Jno. Duley Treasurer, and make arrangements.

WHEN in need of knives, fork, spoons or other articles of tableware, whether in solid sterling silver or finest quality of electro plate, the most practical method of economizing is to visit Ballenger's jewelry store, south side Second street.

HUNTINGTON, W. Va., is scared up over the discovery that Rev. Mr. Reid, of the M. E. Church, South, has the small-pox. He had been sick nearly a week before the real nature of the disease was found out, and while ill had preached and baptised some converts.

NICHOLAS COUNTY is in good shape, having \$3,784,52 cash on hand and a few hundred dollars worth of notes for material sold from old court house. The Sheriff has some two thousand dollars of uncollected tax bills in his hands, which when collected will put over six thousand dollars in the treasury.

THE big seventy-two ton compound engine No. 2427 that passed west a week ago yesterday for a trial on the Big Four is giving satisfaction. No. 2427 is of the ten-wheel type, carries 200 pounds of steam at a saving of 23 per cent. in fuel, and it is claimed can make 100 miles an hour.

THE Chesapeake and Ohio road reports for February gross earnings of \$646,948, a decrease of \$19,429; expenses \$482,945, increase \$43,381, and net \$164,002, decrease \$62,811; and for eight months to February 28, gross \$6,430,228, increase \$89,161; expenses \$4,315,126, increase \$154,943, and net \$2,115,102, decrease \$65,782.

A WRITER in the Richmond Pantagraph states that the people of Madison County have been taxed on an average of \$750 per mile for every mile of turnpike constructed in the county. There are 164 miles of turnpikes in the county, which would make the amount contributed by tax-payers for the construction of roads over which they are not allowed to travel without paying toll \$113,000. The writer states that the cost of the pikes was about \$195,000.

AUGUSTA AFTER IT.

Our Neighbors Are Convinced an Electric Road to Mt. Olivet Would Be a "Good Thing."

[Mt. Olivet Tribune-Democrat.]

The Tribune-Democrat man was in Maysville and Augusta the latter part of last week. He found business in both cities looking up considerably. While the merchants still talk hard times, they are bringing on a large stock of goods and seem to think a few days of spring will brighten up things.

We talked to quite a number in regard to the proposed electric railroad and they all seem to think that it is one of the certainties of the near future.

The business men and citizens of Augusta say they think it is a "good thing" and should be pushed along. They seem to realize the benefits Augusta would derive from such a connection with our county, and talk like they mean business.

And the Maysville people, we believe, are more in earnest than ever before. Despite the hard times cry, the business men of Maysville and the farmers along the route are talking in earnest. Maysville is beginning to feel that it is no joke, and that the road is going to be built—if not to Maysville, why to some other point—and is seeing that it is to her interest to be on one end of the line.

Many good, substantial Mason County farmers, who live along the proposed route, volunteer subscriptions of from \$500 to \$2,000. This sounds like business, and they mean what they say.

Now is the time, so let's push it along.

BROOKSVILLE and Augusta and the Brackenites in general are again agitated over the county seat question. Brooksville has it and Augusta has longed for it for these many years. The present court house building has been condemned, and an appropriation will be asked for on next Thursday for the repair or rebuilding of the same.

THE union revival at Flemingsburg Presbytery Church closed with 45 confessions. The Gazette says: "The marked feature of the meeting was the brotherly and Christian spirit exhibited by the different churches in uniting their efforts in behalf of the meeting, which to a large extent accounts for the great amount of good accomplished. The effect of the services has been plainly apparent in our city, even on those who have never publicly given expression to their feelings. It was the most successful meeting which has been held in this city for some time. The next meeting will be held by Elder William Stanley at the Christian Church, where the good work will be continued."

WILL BENEFIT FARMERS.

Heavy Fall of Rain and Snow in the North-western States.

OMAHA, April 1.—Saturday night, Sunday and Sunday night rain or snow fell in nearly every county in eastern and northern Nebraska. A few spots in the center and western part of the state have not reported but it is known that the storm was almost general through the thickly settled portion of the state.

More timely rain never came and the greatest anxiety was felt for the coming crop of Nebraska, and the lack of rain had given rise to apprehensions that already the conditions in the state were such that the outlook for an abundant crop was very dubious.

Sheep Shearing Stopped by Cold Weather.

CASPER, Wyo., April 1.—The heavy snowfall of the last 40 hours has caused with no particular damage to the range interests of this section. Thousands of sheep are here, as shearing was to have commenced today. Four hundred thousand are registered to be shorn in the pens of this vicinity, and the storm will retard commencement a week or 10 days. Sheepmen are, however, jubilant, as the snow insures abundant feed. Railroad communication is still shut off.

Also in South Dakota.

HURON, S. D., April 1.—Rain began falling here at midnight Saturday night and has continued with occasional additions of light hail. Up to this time over one inch of rain has fallen with good prospects that the storm will continue for several hours yet. This is encouraging to farmers, the prairies having been drier than at any time since 1879, and they had concluded not to put in seed until rain did come.

Drought Broken.

SIOUX CITY, Ia., April 1.—The drought has been broken and a steady rain has been falling for the past 12 hours and is still coming down heavily.

FREIGHT TRAIN WRECKED.

Four Young Men Seriously if Not Fatally Injured.

NEWCOMERTOWN, O., April 1.—A westbound freight train was wrecked on the Panhandle about a mile east of here yesterday and four young men were seriously if not fatally injured.

John Wilson, aged 25, a barber living at Tuscarawas; Oscar Hurzy, aged 19, son of Squire Hurzy, postmaster at Booth; William Mercer and Willis Berkshire, both of the latter place, all walked three miles to Urichsville to catch a freight for Newcomertown. The men all stood on a sill of a car about midway of the train. As the train approached the siding to pull in for the limited, the engineer found he was running at a high rate of speed, and made an emergency stop. The force broke a car coupling just in front of the one the men were on, and they were allowed to drop almost into the jaws of death.

Wilson went off on the left side, and was whirled into the ditch. A car overturned upon him, and had it not been for the excavation he would have been crushed to death. He has had face and scalp wounds, besides internal injuries, which make his recovery hopeless.

Berkshire was pinned to the rail on the other side, and on trying to pull his legs loose found them both off below the knees. He took his coat off, wrapped it about his severed limbs and lay down to await surgical aid or to die.

Mercer had a shoulder badly crushed and has internal injuries, the severity of which can not be told yet.

Hurzy's right arm was broken in two places.

Berkshire will die, and Wilson is in a hopeless condition.

Three of the cars were demolished and several others damaged.

TWO-ROUND FIGHT.

Cockel Delougherty Knocked Out by the Omaha Kid.

KANSAS CITY, Mo., April 1.—Five hundred local sports congregated at Stranger Creek, Kan., 40 miles from here yesterday and witnessed a lively two-round fight between Oscar Gardner, the "Omaha Kid," and Cokel Delougherty, a Kansas City fighter. The Kid was awarded the contest.

In the first round the men mixed matters at a lively rate, Gardner concluding by hitting his opponent a stinger on the nose, just as the gong sounded, and drawing blood.

In the second round Delougherty was inclined to rush matters. In making a heavy swing at Gardner's jaw, and missing, he left an excellent opening for the Kid. The latter took advantage of it and landed a heavy blow under Delougherty's heart, followed it up with a terrific swing on the jaw which sent him down and out.

Delougherty was unconscious for six minutes.

The fight was for \$500 a side and gate receipts. Gardner weighed 120 pounds, and Delougherty 148.

DEADLY ASSAULT.

A Laboring Man Mistaken for Another Pounded Upon and Stabbed.

HAZELTON, Pa., April 1.—Cormack Duffy, aged 20 years, was going home from work Saturday night when he was pounced upon and stabbed by an unknown man who mistook him for another. The assailant plunged a dagger into Duffy's face, cutting out the right eye and severing the bone. Duffy fell and the would-be murderer again attacked him, driving the knife into his breast to the hilt.

He was about to strike a third time when he discovered his mistake and lifted the wounded man from the ground. A crowd had been attracted, however, and in the excitement the man escaped. Duffy revived sufficiently to describe him as a foreigner, but this is the only clew. The steel penetrated the right lung and there are no hopes for recovery.

SAN JOSE, Cal., April 1.—Saturday night three men held up and robbed William Dowdigan, a merchant. In the fight which followed he stabbed one of the men who was later found dead in a vacant lot, where he had bled to death.

Letter-Carrier Huff Discharged.

A week ago Saturday Letter-carrier Huff received notice that charges had been filed against him and he was suspended pending investigation of the affair, mention of which was made.

Yesterday Mr. Huff received notice from the Department that he was discharged from the service, his defense not having been satisfactory.

Mr. Harry Richardson has been recommended by Postmaster Chenoweth for the vacancy and Mr. C. D. Sulser, for the position of Substitute Carrier.

THOMAS D. ROBY, of Nepton, has been granted a pension.

BURNING MOUNTAIN.

Singular Phenomena Discovered in the Wildest Part of the Choctaw Nation.

PARIS, Tex., April 1.—Parties who have just arrived here bring news of a most singular phenomenon recently discovered in the wildest part of the Choctaw nation. The Nanawoyd mountain is about 15 miles long and towers fully 1,000 feet above the surrounding country.

It is an unfrequented section, no person living within 30 miles of it. A party of hunters went there, and seeing smoke, took it to be a camp, and proceeded to the place. Arriving there, they found that the smoke was issuing from a fissure in the rock, which was so hot they could not stand on it. A strong odor of sulphur pervaded the atmosphere, and occasional detonations were heard.

The party became alarmed and left the vicinity. They went to an old Indian and informed him of their discovery. He was familiar with the place and said that the smoke was issuing from it and the same noises were heard in 1832, when the Choctaws went to that country. A further investigation will be made, as veins of silver have been found at the base of the burning mountain.

Ready to Go to Work.

WASHINGTON, April 1.—General Thaddeus H. Stanton, recently appointed paymaster general of the army, arrived here last night from Omaha. He will probably qualify for his new position today.

OHIO OFFICES FILLED.

The President Makes Four Important Appointments.

WASHINGTON, April 1.—Four Ohio offices were filled Saturday by the president making the following appointments:

Charles Edgar Brown postmaster at Cincinnati, vice John Zumstein, commission expired.

John C. Hutchins, postmaster at Cleveland, vice A. T. Anderson, commission expired.

Michael Devaney of Ohio marshal of the United States for the southern district of Ohio.

Samuel D. Dodge of Ohio attorney of the United States for the northern district of Ohio.

After Him With Bloodhounds.

NASHVILLE, April 1.—Friday night Ed Vest, a horse thief, was discovered on the train at Huntland, on the edge of Franklin and Lincoln counties, and taken in charge. While his captors with him were getting off the train, Vest escaped with a large crowd running after him. He turned and fired into the crowd, mortally wounding a boy named Powers, and pursuit abandoned. Bloodhounds were sent for to be placed on his trail.

Quiet on the Reservation.

PENDER, Neb., April 1.—All is quiet on the reservation. No trouble is anticipated until the court, in accordance with Judge Sanborn's decision, shall compel the whites to leave the reservation April 22. Then some individuals may resist eviction, especially if they find Indian police are employed for that purpose.
